Mrs. Amenda Comment; Thank you so very much for your time today! Ya made my trip feel worth my while! Like I said earlier getting the very point I would like to make and everyone to hear in the House making the decisions pertaining to children and Moms and Dads! Accountability is responsibility! So doesn't it seem the one to show the most support in caring for this child should be the Custodian Parent? Or at least Joint physical Parent? Both are responsible in developing this child so both should support the child, financially and physically!! Not just financially but be there for this child through their lives situations! Cause that's what Parents Do! But neither Parent should have a higher ranking power than the other! Cause that shows prejudice! That is not Equal Rights! We are all treated equal! That's the root of the problem starts! From Marriage of two and blessed wedding vows to divorce without Fault! Were divorcing without Fault! Making it easier not to be responsible, accountable! From 1974 to 2009 divorce sky rocketed from 30% to 70%! Easy! One thinks their making out! Usually the Parent that gets the children is the one that makes out! So if we really do want to fix or work on fixing any Family and Human Services! Were going to stop trimming the top of the tree per saying! As we make up new Bills compensating are problems that could of and could be prevented! If we would of put the responsibility where it should be! Let's stop wasting or time on trimming tree while we all could be enjoying Life! We need to focus on The Best Interest Of The Child! The Father by paying most of the child support and the responsibility and don't have the child half the time of the mother and sometime denied parenting time becomes tired and hurt and stop paying child support! As a person making payments on a house or a car! Would you continue to pay on that house or car if ya didn't get to use it? Just think about this letter! Does it make any sense? Please with any questions or comments e-mail Harold P. Sanchez ps; I have been divorce for over 7 yrs.-over nine yrs. parenting! Been with mom and dad's of Michigan over seven yrs. Also preceeding my own cases in court! The system is not out for the Best interest of the Child Sad to say! Please Mrs. Amenda F. Comment send to all Family and Human Services Senators and Representatives and members! Thank You Sincerely yours Harold P. Sanchez
